

PHOTOGRAPHY 101

MASTERING MANUAL MODE

an  SLR Lounge workshop
Instructions & Resources

Introduction & Thanks

Thank you so much for your support of SLR Lounge! The Photography 101 is designed to give photographers a ground up foundation in photography.

Unpacking & Playing the Digital Download

If you have downloaded the digital DVD, then it will come packed in 3 zip files.

- 1) Simply unzip these files to a location of your choosing on your computer's hard drive. For more information on this process, please select the appropriate guide below:
 - [How to Zip and Unzip Files on a Mac](#)
 - [How to Compress and Uncompress files on a PC](#)
- 2) Add the videos from each folder in to a playlist using your favorite video player
- 3) Explore, Learn and Enjoy!

Common Issues

If you are experiencing errors, then in 99% of the cases, the files didn't download completely. Please keep in mind that they are large files and they need to be completely downloaded before they can be opened. In some cases it will take multiple tries; but we suggest letting it run throughout the day. If your download link has expired, email us we will resend.

Due to the HD videos included in the tutorial DVD, we had to format this DVD-ROM for PC/MAC use only; it will not play in standard DVD players.

If you have any technical issues or need assistance, please email us at help@slrlounge.com or check out the [Forums](#) on SLR Lounge for solutions. Thank you and enjoy!
